

## **RECENT GJGS SPEAKERS**

|          |                                       |   |
|----------|---------------------------------------|---|
|          |                                       |   |
| 09/14/05 | Bill Hood                             | Future of Oil   |
| 10/12/05 | Max Ramey                             | Insitu Mining   |
| 10/15/05 | Chenoweth,<br>Goodknight,<br>Dayvault | Uravan Mineral Belt Field Trip                                    |
| 11/16/05 | Dick Dayvault                         | Petrified Wood  |
| 12/14/05 | Jay Scheevel                          | Mesaverde Gas, Piceance Basin, CO                                 |
| 01/18/06 | Stew Hollingsworth                    | Examining Cambrian Rock in China                                  |
| 02/15/06 | Joe Fandrich                          | Ice Dam at Westwater, UT  |
| 03/22/06 | Frank Welder                          | Mississippi River Delta, Before and After Katrina                 |
| 04/19/06 | Nelson, Hodge,<br>Livaccari           | Strike-slip Deformation, Northern Uncompahgre Plateau, Western CO |
| 05/24/06 | Craig Goodknight                      | The Crescent Junction, UT Mill Tailings Disposal Site             |
| 09/20/06 | Rex Cole                              | The Geology of Grand Mesa   |
| 10/18/06 | Andres Aslan                          | Holocene Arroyo Development, Uncompahgre Plateau                  |
| 11/15/06 | John Hodge                            | The Bridgeport Fault, Mesa County, CO                             |
| 12/13/06 | Joe Fandrich                          | Mercury in the Big Bend Area, TX                                  |
| 01/24/07 | Dave Wolny                            | The Mesa State Seismic Network                                    |
| 02/21/07 | Carolyn Tucker                        | Shell's Shale Oil Research Project                                |
| 03/21/07 | Various                               | Research Posters  |
| 03/24/07 | Andres Aslan                          | Unaweep Canyon Field Trip   |
| 04/18/07 | Steve Cumella                         | Fluvial Architecture, Mesaverde Group, Piceance Basin             |
| 05/16/07 | Lucy Piety                            | Busted Boiler Fault Trenches, Uncompahgre Uplift                  |
| 09/19/07 | Rex Cole                              | Nelsen and Lower Farrer Formations, Sege Canyon, UT               |
| 10/15/07 | Kirk Johnson                          | A Fossil-Fueled Tour of Past and Future Climates                  |
| 11/14/07 | Charles Kluth                         | Tectonic Development of the Uncompahgre Uplift                    |
| 12/19/07 | Joe Fandrich                          | The Hoskinnini Conundrum  |
| 01/23/08 | Chuck Burch                           | Simple Seismology   |

|                        |                 |  |
|------------------------|-----------------|--|
| 02/20/08               | Brann Johnson   | Variations of Permeability of Faults   |
| 03/19/08               | Greg Lazear     | Hydrology on the South Flank of the Grand Mesa   |
| 05/21/08               | Charlie Niell   | A New Theory of How the Black Canyon of the Gunnison was Created   |
| 09/17/08               | Joe Fandrich    | Clastic-Injection Megapipes in the Hoskinnini of SE Utah   |
| 10/??/08               | Kurt Reinecke   | Gas Exploration South of the Green River Basin   |
| 11/19/08               | Glen Miller     | General Perspectives on Methods of Oil Shale Extraction to RND Needs, Piceance Basin, CO                   |
| 12/17/08               | Dr. John Foster | The Origin and Early Evolution of Birds  |
| 01/21/09               | Cary McIntyre   | Columbine Pass Gravels   |
| 02/18/09               | Joe Gillespie   | The Pebble Mine, SW Alaska   |
| 03/18/09               | Rick Livaccari  | Geology of the Rough Canyon - Bangs Canyon Area, Northern Uncompahgre Plateau                              |
| 04/15/09               | Various         | Research Posters   |
| 05/20/09               | Dave Noe        | Colorado's Geologic Mapping Program, STATEMAP  |
| 09/16/09               | Joe Fandrich    | Paleozoic Impact Craters in Sweden   |
| 10/21/09               | Bill Chenoweth  | Radium – SW CO's First Uranium Boom  |
| 11/18/09               | Vince Matthews  | The Global Scramble for Natural Resources: Their Potential Impact on CO                                    |
| 12/16/09               | Greg Lazear     | Geophysics of the CO Plateau and Adjacent Terrain  |
| 01/20/10               | Andres Aslan    | Are the CO Rockies Still Rising & When Did the CO River Originate?   |
| 2/4/10 Special Meeting | Bruce Hart      | Basin-Centered Gas Accumulations: Revisiting the Type Areas with Integrated Datasets                       |
| 02/17/10               | Rex Cole        | The Eruptive History of the Grand Mesa Basalt Field  |
| 03/17/10               | Mark Kirshbaum  | The Criteria & Observations of Incised Valley Fill Deposits in the Cretaceous in the Rocky Mountain Region |
| 04/21/10               | Various         | Posters on Research Projects   |
| 05/19/10               | Glen Miller     | Potential By-Products from Oil Shale   |
| 08/24/10               | Vince Matthews  | Colorado Coal, CO2 Sequestration in Colorado and the Craig Project   |
| 09/15/10               | Sally Porter    | Characterization of Navajo Sandstone Hydrous Ferric Oxide Concretions: Analog for Martian                  |

|            |                               | Diagenetic Processes  |
|------------|-------------------------------|---|
| 10/13/10   | Don Rasmussen                 | Salt Glaciers (Namakiers) in the Paradox Basin  |
| 11/17/10   | Joe Fandrich                  | Exploration Geology in the Big Bend Area of Texas   |
| 12/15/10   | Dave Wolny                    | Seismicity of Western Colorado  |
| 01/19/11   | Bill Chenoweth                | Western Colorado's Uranium Legacy   |
| 02/16/11   | Glen Miller                   | Oil Shale: Some Research Needs, Piceance Basin, CO  |
| 03/23/11   | Leo Gilbride                  | Potash – Treasure to a Global World   |
| 04/27/11   | Various                       | Posters on Research Projects  |
| 05/18/11   | Stephen Onorofskie            | Utilization of Gypsum, Gypsum Mining and Manufacturing in Colorado  |
| 07/12/11   | Joe Fandrich                  | Alpine Glaciation in the Lake City Caldera Area   |
| 09/21/11   | William Sercombe              | Deep Water Gulf of Mexico High Gamma Ray Shales and their Implications for Flooding Surfaces, Source Rocks and Extinctions                                |
| 10/19/11   | Stephen Cumella               | Important Characteristics of Rocky Mountain Tight Gas Accumulations   |
| 11/16/11   | Jay Scheevel                  | Climate Change: By the Numbers – A Look at the True Scale of this Phenomenon  |
| 12/21/11   | Art Trevena                   | The Geology of Mars   |
| 01/18/12   | Thomas Hunn                   | Diamond Crystals  |
| 02/15/12   | Dr. Andes Aslan               | Post-Laramide uplift of the Rocky Mountains and the Colorado Plateau; an update of the CREST project and CMU/University of New Mexico NSF-funded research |
| 03/21/12   | Bill Hood                     | Unaweep Canyon, Cactus Park and the Origin of East Creek - Some New Ideas about an Old Canyon   |
| 04/25/12   | Various Students and Members  | Poster Presentations  |
| 05/16/12   | Larry Moyer                   | Lessons in Exploration – Early History of Oil Development in NW CO  |
| 08/29/2012 | Bill Chenoweth                | Grand Junction and the Manhattan Project – Domestic Uranium Production during World War II  |
| 09/19/12   |                               |   |
| 10/17/12   | AAPG DL Dr. W. C. Rusty Riese | Oil Spills, Ethics, and Society: How they Intersect and Where the Responsibilities Reside   |

|          |                |   |
|----------|----------------|---|
| 11/      |                |   |
| 12/19/12 | Wendell Koontz |   |
| 01/16/13 | Bill Chenoweth | Grand Junction and the Manhattan Project during WW II |
|          |                |   |
